

The New BG-Trap Station

for Professional Mosquito Trapping with the BG-Counter

Biogents' new BG-Trap Station is a robust shelter for your BG-Counter.

The BG-Trap Station

- is made of **stainless steel**
- **protects** your BG-Counter **from weather**
- can be attached to **any type of terrain**
- is optimized for the **BG-Pro trap**

The BG-Trap Station can also

- serve as a basis for a **solar module**
- be used to mount **other attachments** such as the CO₂ tank or a metal grid to protect from vandalism

The BG-Trap Station consists of a metal base, two poles, a cover, and BG-Pro trap parts. All parts can be easily assembled:
